

Roller Flex Bollard

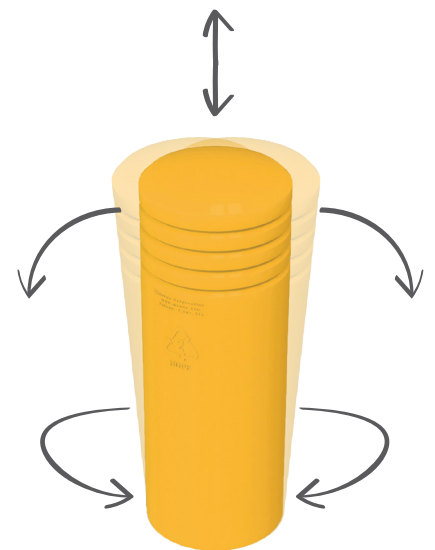

Sometimes the best defense is rolling with it.

Distributing impact energy with rock and spin capabilities, the Roller Flex Bollard protects against glancing blows—perfect for high-traffic corners. Engineered to install fast and require no maintenance, it keeps your business rolling right along.

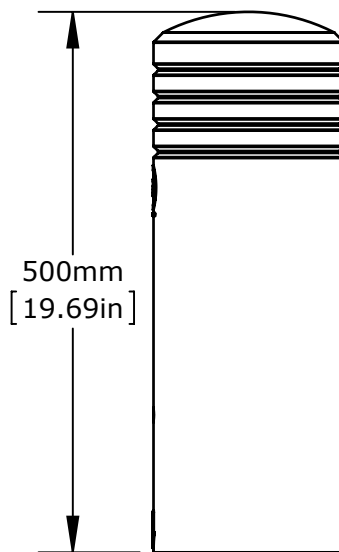

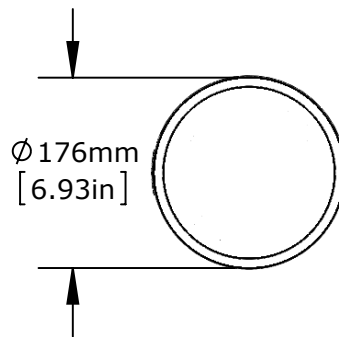

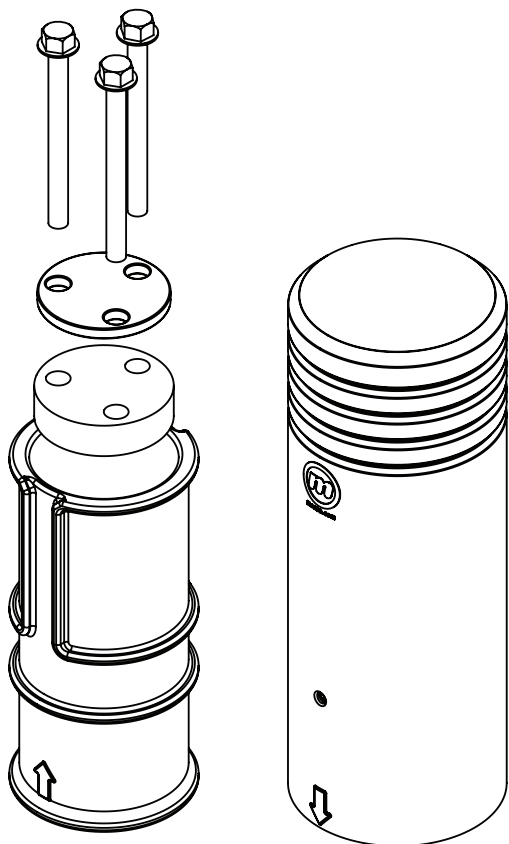

Rotating HDPE Shell Exclusive design rocks, rolls and lifts when hit

Flexible Core Absorbs direct impacts, preventing damage to your facility

Zero Maintenance Install it once, get peace of mind for years

Roller Flex Bollard

Roller Flex Post Materials

HDPE shell, iron core, rubber damper, anchor kit

Guides your equipment around high traffic corners to avoid damage.

The Roller Flex Post can withstand an impact of 10,734 lb [477 kN].

This is equivalent to a 9,000 lb [4082.33 kg] vehicle at 3.4 mph [5.5 km/h] and recover to the original position.
